Subject: Redistricting Testimony

My name is Karla Martinez. I understand the hard work involved in planning and organizing this type of work. That is why, being part of the state of Texas, I am interested in a redistricting not only fair, but also analyzed according to the advances or needs that have been and are still present.

I think that more attention should be given to the districts that exist according to a supervision of progress and supervision of economic funds spent in each district. I believe that the general public must know the plans of the redistricting before they are official, to participate in a vote or to be able to suggest according to the perspective of the people who make up the districts.

Thank you for allowing me to give my testimony.

Sincerely,

Karla Martinez
