Draw fair maps.

I know the Republican-dominated TX Legislature will not, because it knows well that it cannot win fair elections. Thomas Hofeller's marks are all over our district maps. He's thankfully dead, but his lessons and contributions to Republican fascism will continue on, and into this districting effort without a doubt.

Draw fair maps, though. Put the popularity of your POLICIES to the test. If you can't win without choosing your voters by gerrymandering, you don't deserve to hold power.

It's simple. If you cannot win elections based on your policies, then you don't deserve to hold office. If you're so driven to rig elections because you want what you want, you're an authoritarian. In the era of Trump and after 1/6/2021, all of you still running on Trumpism are fascists.

But draw fair maps. I promise if you draw fair maps and let the trash be taken out via normal democratic processes, we won't have to resort to "domestic terrorism" to depose you once we've exhausted all legal means.
