Message:

I live in Huffman TX District 2

I have looked at the two Plans that have been submitted. PlanC2101, is a very balanced plan. No one group is over represented. This plan takes into account the make up of the district and places communities of interest together.

I also looked at PlanC2102. This plan is extremely unbalanced. One group so over represented that the remaining group is left with no representation so to speak. This plan also places one group of people into communities that do not have the same interest.

I would encourage the Senate Committee to go with PlanC2101 it is a balanced plan that will keep communities of interest together thus making for better representation for all citizens.
