Affirm public info: I agree

Regarding: Senate

Message:

I live in Schertz, Texas, in Guadalupe County, just outside San Antonio. Under the current proposed map for redistributing, I would be placed in district 28. This long thin district does not meet the qualification for compactness or representing a community of interest. It would represent two very different cities, San Antonio and Laredo. A representative can only live in one area, and the other area would be hardly represented. Also, it places two areas that are both predominantly minority, into one district, giving another district to the already over represented white majority districts. I feel that my vote will count much less than in other districts as a result of this map, and therefore oppose it.
