Special session for the work that should have been DONE in regular session!
Why wait till week 3 to get this going and why give the derelicts the opportunity to leave???
Looking at Burrows and Patrick on this!
Do not ask for 1 dime of more money from any of us until you get your acts together for Texas!
We are exhausted for the political games and can see the ineptitude at every turn now. You are NOT fooling any of us and we are SICK of this BS.
The expansion of government is NOT what we voted for with these fancy titles of "special" committees, it's still theft of Texas Taxpayers veiled in new programs.
I am disgusted along with Thousands of other Texans!
