Message:

I urge the Texas Legislature not to pass these maps. They have been hastily forced on members during a special session at the request of the U.S. President who is hoping to retain power and political advantage by changing the maps of our state. Texans have integrity, and should not comply with a federal request to interfere with the state's business.

I believe this action (and compliance with it by our state's leaders) will escalate a battle between states to alter their maps quickly in favor of the outcome they want to see. I believe this will further erode citizens' faith in our democracy and the quality of responsiveness between voters and their representatives.

In short--the people of Texas do not want this. Think about your kids and grandkids, and don't do it.
