Message:

It has come to the attention of me and a large portion of the country that MAGA acolytes in the Texas Government are attempting to gerrymander senate districts to pick up an additional five seats in the majority, as ordered by President Trump. This gerrymandering disenfranchises voters, which is why it's illegal, and that should be enough reason to not do it. But since MAGA drones only care about themselves and their leader, I'll tell you why it's a bad idea for you. If you do this, every blue state will be free and feel encouraged to follow suit. And in that way you would be betraying your MAGA ideals and your leader by actually losing senate seats.

It's more important to me to keep Texas elections fair than it is for democrats to win senate seats. But those are your options. Keep elections fair or prepare for the long difficult road ahead that ends in the toppling of a fascist regime.
