Affirm public info: I agree

Regarding: Congressional

Message:

Dear elected officials,

As a native Texan I am in disagreement with the way our state is allowing the federal government to pressure them into changing districts to benefit them. We should be focusing on all of our fellow Texans and what best serves them! We need districting in which makes sense and allows the leaders to actually know the people that live there and what their needs are. All of these changes are to the detriment of minority populations and will not allow for their needs to be heard or met. I urge you to consider the harm it would do to All Texans! Say no to this redistricting! Everyone in this state is already struggling with rising costs and loss of benefits. We do not need another harmful action to kill our Texan pride.

Thank you.
