Message:

I am against the redistricting proposal. There is a process for redistricting and it is not being followed because apparently none of you have the courage to stand up to Abbot or the president. If a democratic president was doing this and pressuring a state to redistrict without any change in census information you would be losing your collective minds and oppose at every turn. And as a democrat I would support you doing that because no president should be able to pressure a state to redraw congressional districts for the sole purpose of rigging a future election in the favor of the presidents party. Do you want to be remembered as a weak legislator who knowingly influenced an election and took the power from the people? Have you actually lost site of why you went into this career. Would your 10year old or 15year old or 20year old self be proud of the sellout you have become? Will your kids, your grandchildren your nieces and nephews be proud to say they are related to you knowing what you are supporting is wrong. You have a chance to reclaim your humanity and compassion and integrity, are you that easily bought that those things are no longer important to you? I urge you to stick to the law and process and remind yourself and your colleagues that you are breaking process without cause and that what you do next will not be forgotten and those with humanity and compassion and integrity will never let you or the public forget what you did here and we will pour ourselves into the opposition to ensure you do not get reelected. The more freedoms you take the the people the less they have to lose and the more they will fight back - and I can tell you that you are not ready for that fight.
