Affirm public info: I agree

Regarding: Congressional

Message:

Good morning to any one reading,

I like many others, am very concerned on what this redrawing of the district maps. This is so detrimental to how citizens who determine elections are represented. I disagree with this, especially in the middle of when it is supposed to happen. This is a gross way to silence thousands of Americans and make their voices less powerful than other constituents. I am an independent and I will consider this in the coming elections.
