What is wrong with the governor who bends the knee to New Yorker, Donald Trump, and a pathological criminal? Governor Abbott has already robbed women of their voices with the abortion bans. No one should be thinking of having children under the worst regime, where food and housing are unaffordable because of Trump's tariffs and vindictiveness. Now, Governor Abbott wants to rob Latinos/Latinas and Black people of their voices and vote, and it will backfire. Mark my words. I will campaign and raise awareness, so no matter how you redistrict, you will lose. Threatening our legislators for leaving when they are saving the state from Paxton's and Abbott's corruption. Paxton, a money-launderer and womanizer, is a horrible human being. A governor who did nothing to prevent the floods that killed so many, or the shooting of children in Uvalde.

Straighten your priorities, contrary to popular opinion, Governor Abbot should work for we, the people, NOT Trump. What a disaster Texas is under Governor Abbott!!
