Message:

It is absolutely hideous and shameful that Texas Republicans and other Republicans are supporting gerrymandering Texas to take additional Republican seats. Having the FBI go after them is beyond unjust. That is an ill use of the FBI. Our government seems that they are not subject to any laws or to the constitution. It is obvious that no one likes what Trump is doing, and now he is afraid of losing seats in the house in Senate. He does not care about the will of the people nor do the Republicans except for very few..
