Affirm public info: I agree

Regarding: Congressional

Message:

For a democracy to function, it is vital that each person's vote "counts," i.e., has the opportunity to affect the results. Texas districts have been gerrymandered to the extreme--so that by and large, only white persons' votes actually "count." And where that may not be true, Republicans are trying to "fix" that "problem" and assure that only white persons' votes count.

Special Committee: (a) redistricting at this time--outside the census--violates current practice; (b) Donald Trump is not your boss--the people of Texas are your boss, and it is we who should be listened to; (c) the lawsuit response stated that race was not considered in the most recent redistricting process; therefore, the excuse for engaging in this process at this time is invalid; (d) STOP the redistricting process, as it will not support the "one person, one vote" principle.

Partisanship is tearing this country apart and it is warping Texas politics. We were once a proud state, but now we appear to be only an appendage of Donald Trump and MAGA. That is inexcusable. I demand that we reclaim our position as an important entity in the United States and declare our independence from the tyrant who currently holds the executive branch. It is also unnecessary to attend the Governor of Texas, as he also is NOT your supervisor. It is unconscionable that legislators would choose their constituents rather than voters choosing who will represent them and WORK for them.

Service to the people is the essence of political labor. Make service to the people your goal in every decision.

Thank you.

Beverly Randolph, Corpus Christi, Texas
