Affirm public info: I agree

Regarding: Congressional

Message:
Good afternoon,

I'm writing as a resident of congressional district 37 to register my opposition to the 2025 redistricting proposition.

The 2025 redistricting attempt should be recognized for what it is - a naked grab at power that should be opposed by anyone who supports the idea of representative democracy. Spurred on at the behest of a deeply unpopular, embattled, authoritarian president, the proposed maps are a desperate man's attempt to avoid political and criminal consequences in the 2026 midterms. The committee should think long and hard about who they're choosing to throw in their lot with.
