Affirm public info: I agree

Regarding: Congressional

Message:

I would like to request that the Legislature focuses on providing services to the people of Texas and to support good pay and benefits to State Employees who provide those services. I believe that mid-decade redistricting is not the best use of the Legislatures time and taxpayers' resources. I would prefer that the Legislature spends time on issues like education, housing costs, natural-disaster response, infrastructure and other issues that affect people's day-to-day life.

Thanks for your consideration.

Thanks, Charles.
