Message:

Redrawing District Lines without any new census data is Gerrymandering. You will be diluting the Rural vote with the Urban vote and vice versus. That is NOT representing Texans. This special session was called to take care of the Hill Country. This special session was NOT called to cater to our delusional pedophile in chief. Get to work FOR TEXAS, or find yourself voted out anyway, even if your replacement is another Republican. Texans want what's best for Texas...we really don't care about what's best for D.C. Maybe our ELECTED officials would be best reminded of who actually holds that power when it comes to the offices they hold.
