Message:

It is shocking the depths that the Republican party will stoop to in order to remain in power over Democrats. This actually says that Republicans are afraid as they realize they are being exposed as not being the party of family values. That such actions are taking place demonstrates the the arrogance and hubris of this Party

It is notable that you'd condemn Democrat politicians for leaving the state in an effort to stop this reprehensible gerrymandering, yet you remain complicit in Speaker Johnson shutting down Congress early. This speaks to the guilt and culpability of the Republican party, including Texan Republicans.

Finally, when Texas has just experienced a horrific tragedy in the loss of life due to floods, one would think that would be priority, demanding focus of energies. This is especially egregious knowing that funds were allotted by President Biden, but that your Republican majority chose to spend those resources elsewhere. Texans should be outraged. Shame on each and every one that chose instant gratification over long-term precautions for

Texans.

You have made your priorities clear;  
now we, the citizens, will make  
clear ours.
