Message:

Voting and the electoral process is a right for all citizens that is an integral part of the American democracy. This attempt to redistrict not only undermines that important and most valued aspect as an American, but also goes against all that Texas stands for and is a direct attack on its people. The state of Texas is already one of the most complicated and hardest states to vote in; that actively prevents people of all colors, race, and backgrounds to participate in this fundamental right. This latest attack of its people is an attempt to rig the system even more instead of just listening to its people. Voting has serious, life and death consequences, and to try to change the system to further promote rules and laws the people have made blatantly clear they do not want is an attack on its people. Politicians only have their jobs because the people have chosen to let them have that job, it is not the other way round. It is time for the State of Texas to listen to the people; the people have spoken and do not want this redistricting. It is time to empower the people, work FOR the people, and listen to the people.
