Message:

Redistricting outside of the traditional sequence or without legitimate legal issues is disrespectful not only to the constituents of potentially impacted districts but also to all residents of the state and this country. Furthermore, redistricting strictly for the political gain of a particular party undermines the purpose of government, creating a never-ending game of constantly undoing policies of the opposite agenda and preventing the government from doing its job. That job being properly representing and trying to improve the everyday lives of the general population.
