Message:

Donald Trump is known for the art of the steal. Stiffing debts owed. Debts owed to contractors. In fact Grand Rapids, MI was stiffed \$49,000 for 2024 campaign debts. Mr. Trump whines about damn near everything. How he is so persecuted. The deep state. How things are always rigged against him. Mr. Trump sees no shame in accepting a Qatari Jet, stiffing the american taxpayer for upgrades and treating jet as his personal property, rather than government issued. Mr. Trump has an unfiltered charecter and lacks mainstream civility boundaries. He attacks anything or anyone that he perceives is not bending to his will. Gerrymandering the deliberate manipulation of district lines to rig elections and silence voters is a big ask. He put a big ask on Mike Pence over the 2020 election. Mr. Trump must think he lives on the end of a one way street and all the traffic goes his way. It is long overdue that good judgement and best practices win out over decisions driven by fear and Trump wrath avoidance.
