Phone: 

Affirm public info: I agree

Regarding: Congressional

Message:

I've been a Texan my whole life, and never have I seen such cowardice and bad faith from the party in power until today. There is no reason for this attempted redistricting other than trying to fix the upcoming elections. How dare state Republicans call themselves public servants when all they are doing is kowtowing to a president who is not afraid to cheat to get what he wants. I demand you stand in support of democracy and vote NO on redistricting during this special session.
