Message:

Redistricting during this 5 year period is wrong and clearly an attempt by the Trump administration to adversely affect the midterm national election in favor of the Republican party. The Republicans obviously don't think they can win a fair election or this issue would never have arisen. This effort will show how desperate and dishonest the Republican party really is.

To win the voters over the Republicans should do something to help the working families of Texas and the rest of the country instead of trying to steal the midterm election.
