Message:

I oppose HB4 and support only a redistricting process that is fair, transparent, and accountable. Districts should represent communities and not be based on political strategies.

I am against addressing redistricting during a special session or any session until the 2021 redistricting has been addressed. It is not a redistricting year and the proposed redistricting is an obvious power grab by Republicans. Further, it is outrageous that a president would request this and that the Texas representatives would capitulate to his every whim. Redistricting should be about the people and making sure every voice is heard, not about elevating some voices while silencing others.

If the state is going to use taxpayer money for a special session, it should be for instances that care for the actual people of Texas, like flood relief and emergency preparedness efforts. Thank you. I hope you listen to the people in this matter.
