Message:

I am a Texas resident who lives in US Congressional District 9. I am represented by the US Representative I voted for, Rep. Al Green.

Texas Republicans are bowing and scraping to Washington DC Republicans and Trump in a partisan and unnecessary attempt to steal my vote and my representation.

DC Republicans drew these ridiculous maps that "pack and crack" Texans into districts that do not meet the needs of Texas and do not accurately reflect the Texas population. They want the Texas legislature to choose the voters, rather than letting voters choose who represents us.

By shifting CD 9 to the east side of Houston and beyond is literally stealing my Representative. It is stealing my vote.

All of this garbage - the waste of our time and Texas tax dollars - is so Trump can get bills passed, because everything he wants is so unpopular. The Republican Party is hellbent on controlling every American's life in perpetuity, no matter who we actually want representating us.

These proposed maps are racist, unrepresentative, and partisan. Millions of Texans will be directly impacted and the entire country will suffer.

"The biggest upheaval would be in the 9th Congressional District, a seat represented by Rep. Al Green that currently covers the southern part of Harris County and its direct southern neighbors. It would shift to the eastern parts of Houston, where no current member of Congress lives. Instead of being a seat that former Vice President Kamala Harris won by 44% under the current boundary, Trump would have won it by 15%." - Texas Tribune
