Message:

The time has come for each of us to be held accountable. The Texas Senate and House for their votes and leadership AND your Texas constituents for our involvement to see that you do.

How you handle this present crisis will have an impact for many generations to come. Gov Abbot, as well as our House and Senate, MUST follow through with REAL consequences for those Democrats who have broken the law they swore to uphold in abandoning their duties.

The eyes of the American public have been opened in the last five years to the manipulation, corruption and madness of our government in both parties. You know what is right and what is needed. It's time to DO it completely!

Not only are Texans, Americans, the entire world watching you, but your Father in heaven is also. Choose us, but even more important choose Him, for He cannot lie.

Praying...
Elizabeth Winter
