I find this "special session" to redraw district maps to be the biggest abuse of power in the state of Texas. Abbott himself has stated he does not want to do this, but because Republicans are so cowed by Trump they say "how high" every time he says "jump." I would like to remind the representatives that you work for me and every citizen of this state which includes our majority Latino population. You DO NOT work for Trump. Or at least that's how it's supposed to work. Unfortunately, you are all cowards willing to nail the constitution to a burning cross rather than having actual principles. Needless to say, I wholeheartedly opposed this proposal to redraw maps that were ALREADY gerrymandered to hell. Unless there is an effort to draw a district map that truly, fairly represents the diverse population of this state, this is a POINTLESS WASTE OF TAX DOLLARS. Not to mention, this is a blatant effort to appease "dear leader" Mango Mussolini. Imagine Obama demanding Abbot give him 5 democratic seats. I'm sure Abbott would be just as congenial to give into the former president's every demand. HAH. Abbott fell for the Russian Psy-op Jade Helm conspiracy theory and was willing to block an imaginary threat. Just as he is fighting an imaginary war at the border. But god forbid he actually say no to an actual authoritarian. Maybe stop trying to joust windmills and DO YOUR JOB.
