Regarding: Congressional

Message:  
Hello Members of the Committee,

The massive decision to change the voting districts in Texas is one that should come under extreme scrutiny. Surface level justification is not enough to support that a plan of this magnitude is truly in the interest of the marginalized populations it claims to support. The plan must be peeled back, understood, challenged, and verified. As elected representatives working under ethical standards, I believe that the committee is trustworthy to this end, and thus it would not escape you that this plan will in fact silence and destroy the voice of Latino voters rather than amplify them.

However, it is not always easy to stand against the pressure of unethical behavior veiled under reason. If any small voice in the storm might help you to fight for the people you represent, I hope that these words will give you courage to resist external power and strive for more balanced representation rather than surrendering your commitment to

serve the Texans you represent. So many are relying on you to stand up for them. Please fight back against this.
