Message:

When it comes to redistricting Texas for the benefit of silencing democratic votes I am entirely opposed as a citizen of Texas. This is a vile abuse of power and should not be allowed. One of the American ways is to allow people their right to free speech and voting and everyone's vote no matter how misguided or ignorant. Texas Congress and our current administration thinks it is (which is not true) should be counted as such in their current district. Education is power, and every American regardless of race ethnicity religion or sex should be allowed to make educated votes in the district in which they belong to and not distributed unfairly because our administration cannot handle criticism.
