Message:

The current district maps are already heavily gerrymandered and any further gerrymandering will cause devastating inequality, and harm too many of our middle and lower class folks struggling to make and meet and find representatives who will actually represent them and as citizens of the state. I ask you to not push forward a new redistricting plan and instead put your efforts into drawing a new map that is fair and balanced so that every candidate gets a fair shot for their values and their promise to serve their constituents and not just make this about party politics.
