Message:

The only redistricting that should occur is to prohibit any sort of shape favoring one party over the other. Draw our districts based on population and geographic closeness. A voter in the Rio Grande Valley should not be represented by the same individual that represents the outskirts of San Antonio; it's very hard to believe they would have the same priorities given the cultural, climate, educational and monetary differences given the specifics of each geography. Nor should a representative in the outskirts of San Antonio also represent far west Texas for the exact same reasons. Districts should represent areas of the same general area with a comparable population size. Make our districts non-partisan. No district should favor one party over the other. This is how it should've always been and should be moving forward.
