Message:

I am writing to urge our Texas Senate to stand up to US Executive over-reach into our state's representatives. Our representatives are to represent a community, not piecemealed to shape special interest. Our representatives end up being for special interests and not the people. We did a re-district based on the last census. Without new core data (census) we should not make assumptions. Our Democratic system is not a Game and we should not Game the system.
