Message:

Your constituents are tired of being ignored. We elect “conservatives” to represent us and the minute they arrive in Austin, they shed their faith, family, and love of country and the Great State of Texas. For 20 years we’ve watched the leftists in the state of Texas run committees, derail conservative policies, and elect our Speakers of the House while our weak Republicans bend the knee. NO MORE!!

Where was Lt. Governor Dan Patrick and Governor Abbott while all the plotting and scheming to ignore the redistricting was brewing? Aren’t the two of you our highest elected leaders? Did you not hear the Texas voters in November of 2024? We elected President Donald J. Trump by 14% to enact America(ns) First policies. We suggest you do your jobs and change the map of Texas to drive change that will benefit Texas and Americans.
