Message:

Texas is not a red or blue state. A Republican or Democratic state. It is a state of, for and built by Texans and our fellow Americans from wherever they came here for whatever reason. Now one party may hold the majority of power for a time, but NO PARTY IS ENTITLED to have every representative district in any state or every lever of power in this great State or our Great Nation. THE PEOPLE ARE ENTITLED to have equal and fair opportunity to vote for their representatives. When you have gerrymandered districts like you have already, and you know you have, you deny people the opportunity for that equal representation. Gerrymandering is what those of you, who do not have honor or integrity do to pick your voters in order to hold on to power. Gerrymandering should be illegal for every state and Texas should be leading that charge to discontinue and abolish the practice. But instead, here you are, cowards, changing maps mid-decade at the clear request of a President of the United States. We should never be bending knee to the Federal Government. It is first cracks into our State's Sovereignty. It is not American nor Texan. And the maps are not either. DO NOT move forward with these maps. Fix our districts after the 2030 census with an independent, citizen lead committee. Use policy to win votes. Like a real Texan. A real American. Let us use the remainder of this special session to help those that were hurt by the flooding in Central Texas. Because you all have failed Texans so far in that regard. You are wasting your opportunity to make that right. As well your opportunity to keep voters based on your merits.
