Message:

As a voting citizen of the State of Texas, I want to voice my opposition to the 2025 redistricting exercise currently being entertained outside of the regular 10 year census informed cycle, at the explicit request by the President of the United States to secure five additional Republican seats. It is shameful that the Texas Congress allow themselves to be used in this way, shirk their duty as representatives of the People, and prioritize this activity over legislating relief measures for Hill Country flood victims and implementing preventative disaster and emergency safeguards for the future. I live in the Houston area, hurricanes are going to come sooner or later and my property insurance rates are skyhigh. Emergency preparedness and disaster relief is critical work for Texas residents across the state. The Texas Congress should be working for your citizens, doing the bidding of the Texas People, not being yes-men to Washington. Stand up and tell Washington, Don't Mess with Texas, we have important work to do for our citizens
