Message:

Considering the bowl of spaghetti the State of Texas' districts currently depict. It is important that we redistrict, but not in the sense that this committee appears to be convening for. Attempting to silence the voices of a certain party is unconstitutional. Ripping apart a state and making it more difficult on citizens of a state for a future of a federal election is preposterous. It is absolutely absurd that any party would see the need to essentially "fix" an election. It is important to win fair and square, not by cheating, and thwacking the knees of those whom you deem as a threat to your ideals. It is absolutely heartbreaking, the current state of our union and our once great state. Please consider you have actual humans beings living here, who are greatly impacted by every decision made. Whether they live in a blue city or a red town, they deserve a voice. They deserve to be heard and not cast aside for another venture that is to make a minority of the US population more profit. Please consider the importance of discussing actual topics and not wasting time on a request of somebody who doesn't even live here. The more this state is diced up and sold off to the highest bidder, the harder it makes it to call myself a proud Texan.
