To the senators in our Texas legislature,

My name is Jennifer Steffenson. I am a hard working account manager, a mother of 3 wonderful humans & a wife. I have a bachelors and master degree from two Texas institutions, and I've lived here 90% of my life.

In my lifetime, I cannot remember a time when republicans weren't in power in Texas. And in that same lifetime, I have seen the same party change and continue to stray further from the needs and the interest of the people they represent in favor of the businesses and mega donors that fund them. I am embarrassed that power and money are what is important to the state representatives rather than what is right, and right now, it has never been so much more evident as we watch the Republican Party in Texas push through multiple issues in 2025 that are wildly unpopular with the people they say they represent. While we can't turn back the time to have you re-vote on school choice, an issue I've rarely seen Texans so united against, you still have the opportunity to listen to those who elected you and vote against this mid decade redistributing scheme which is solely the ask of a president that more than half of Texans didn't vote for.

I am proud to stand up for what is right. I stand behind our elected tx state officials who have broken quorum as allowed by the Texas Constitution to stall these efforts. They represent their community. They are listening to Texans who are unhappy with the way our voices are being further and further diminished. They stand for their constituents, whereas the Republican Party increasingly bows down to a clown with a god complex, and I'll leave this with you questioning whether I mean the convicted felon, probable pedophile con-man in the White House, or the one wheeling around Texas first using a tragedy and now resorting to threats to get "his" policies passed.
