Message:

This call to redistrict Texas with the intentions of skewing the numbers of republican representation in the state is not only unjust, but a poor representation of the residents in Texas as a whole. As our state Senate, you should be more concerned with adequate and proper representation of our state as a whole and not solely focused on how we can become a complete Republican presenting state. In intentionally drawing new district lines to drown out democratic voices, you are silencing part of the population that allows us to flourish as a democracy. In summary, I do not support this current plan to redistrict and if redistricting is truly needed to make things more "balanced", then it should be done at an appropriate time (ie. during a census year).
