Date: 2025-07-25
First Name: Judy
Last Name: Malandruccolo
Title: N/A
Organization: Self
Address: ███████████████
City: Plano
State: Texas
Zipcode: ████
Phone: ███████

Affirm public info: I agree

Regarding: Congressional

Message:
My name is Judy Malandruccolo, I'm speaking for myself but also other retired Texans. I live in Tx 03, Rep. Keith Self's District. We
were already gerrymandered during the last redistricting efforts. My little suburban neighborhood is filled with retirees and persons of
color. Included in our district are rural Texans from Greenville and Princeton who have nothing in common with us in South Plano. My
Texas Representative is the one Democrat in five Collin County districts. The Republicans in power drew the lines to make sure they
remained in power for as long as they wanted. People feel disenfranchised to vote - they feel their vote no longer matters because the
"Red Team" has cheated for so long.
About this request that the DOJ made to redistrict mid-decade so that "Trump could pick up 5 more districts" will be an illegal power
grab to crack majority-minority districts. The ones they named, CDs 18, 9, 29, and 33 have minority Representatives elected by their
constituents. Changing the method that we choose representatives - they choose the voters instead of the voters choosing them -
should never come to pass. This is an obvious power grab.
The speakers giving testimony today, Friday the 25th, all agreed. They gave you numerous reasons that this should not be happening
right now. There are too many issues that our Texas representatives and senators should be working on other than trying to cheat to
win future power. Fix the real problems: the flood warning system, water rights, and worker's issues!
I have lived here in Texas most of my life and love my state. I just wish we could fix the representation we have in Austin and in DC. It
can be very frustrating to have hard-headed men with no empathy for real Texans in charge.
Thank you for allowing me to give my opinion.

NO REDISTRICTING MID-DECADE!!
