Message:

We redistricted after the 2020 Census, approved by a Republican majority in State House and Senate. Spending time and tax-payer funds to do it again now is an egregious waste when we have much more pressing matters to address, such as rebuilding communities following the July storms, an unreliable electrical system, crumbling infrastructure, and loss of federal funding for schools, the disabled and elderly residents.

The impropriety of this unnecessary and costly process is glaring, with the President openly boasting on national television that it is devised to secure more seats for Republicans. Our political system was created to represent all citizens, and this endeavor dishonors our great state with its long history of independence. Please resist federal pressure to redistrict now, and turn your attention to supporting Texans in their pleas for urgently needed improvements. The nation and world are watching.
