Message:

The disenfranchising of my vote is disheartening. Politicians knew as soon as we saw the writings on the wall and how corrupt our government has become we'd opt out and use our constitutional powers by voting and once again the same republicans party that's been running a muck is redrawing districts. Cheat me cause you can't beat me anymore. I hope this turns against them cause we need representation we pay taxes! Not cooperations or billionaires. Please think about this and know people will sue and resist this decision.
