Affirm public info: I agree

Regarding: Congressional

Message:
I object to redistricting TX congressional districts.

I am extremely proud to live in a highly diverse community. Diversity has brought a wealth of culture, ideas and education from all over the world. As voting citizens, we all add value to our community. As Americans living in a democracy, we are guaranteed an elected representation. The Founders did not intend or expect gerrymandering to manipulate the system so that minorities would not be represented.

- We need districts redrawn to represent the diversity in Houston.
- Redistricting now will result in more legal challenges and costs to taxpayers.
- Manipulating maps will erode voter confidence and call the results of 2026 midterms into question.

The University of Houston public hearing was at capacity very early today. Why aren't there more hearings open to the public? A 30-day session is not enough time to allow public feedback and fully address the complex task of redistricting.

As discussed, this effort to redraw the Texas Congressional map is an attack on the voters of Texas. Every single Texan, no matter who they vote for, should be outraged at the plan to take power from Texas voters.
