Message:

As a Texas resident and voter, I believe we should pick our representatives and not the other way around. This special session was called to help with the flooding tragedy in the Hill Country in which we still have fellow Texans missing. To then take this precious time to use to redistrict at the urging of the Trump administration is unconscionable and without empathy for the victims still dealing with the aftermath of this catastrophe. The priority of this special session should be to help our fellow Texans recover and then prevent such loss of life and property in the future. This plan to redistrict is executive overreach into our state's running of our elections and to even consider especially at this time shows who you really represent and who you care about. This is a threat to Texas, the United States and our Democracy. Fix the flooding, not the election. No redistricting until the next census!
