Regarding: Congressional

Message:

Dear Members of the Committee,

I find it extremely disappointed that the state leadership seems like it is focusing more on political power over the wellbeing and needs of the people of Texas. In the recent event of the devastating flood our communities need real help, not more favors for political allies.

What happened to caring about Texas? Why are we bending backwards for leaders who have shown little care for the real needs of the state? If they are willing to gerrymander for political power, how long will it be before they betray their fellow Republicans to gain more political power over everyone?

I urge you to reject this Congressional Redistricting proposal. Your actions speak louder than your words. By standing against it, you would be standing not only with your constituents, but also with the integrity of our government. You have the power to show what ethical leadership looks like and to put a stop to the political abuse because it will cost the support of your constituents.

Sincerely,
A Concerned Texan
