Message:

Instead of gerrymandering this state further than it already is, why don't you work with your constituents and pass legislation that actually helps Texans? Millions are slated to lose their healthcare thanks to the BBB, prices are rising as wages remain stagnant, and we are burning through millions of dollars a day paying ICE agents to violate the constitutional rights of people that live among us. A sitting president should never, ever instruct lawmakers to rig the game.

And as for Abbott and other Republicans puffing out their chests and saying they're going to arrest Democrats for fleeing Texas to avoid allowing this attack on our democracy to occur? Insane. And also hypocritical, since republicans did the same to protect the release of the Epstein files. Absolutely zero shame.
