Message:

I have lived in the DFW for a majority of my life and I am deeply disappointed and disgusted by the decision to redistrict my city along with cities all over the great state of Texas(that may favor the Republican party). I believe, and the governing body of Texas should believe, that any Texan, regardless of where they live, should have the equal opportunity to have their voices heard and their vote matter. The jobs of the representatives in this state are to represent the people of Texas. Furthermore, it is the job of the people of this great state to elect officials who share our values, reflect our morals, and stand up for what is right. If the representatives of the state cannot uphold the values of the people, and reflect the values of the people they serve, they should not be serving a public office. I ask that my representatives, please reconsider and to not redraw the district lines of many of the cities in the great state of Texas. If this gerrymandering continues, the current attitude towards the Republican Party will shift even more negatively than it already has. This gerrymandering is unethical and un-American and I ask for any and all representatives to vote no.
