Regarding: Congressional

Message:

I oppose Texas
redistricting during
a non-census year.
We have no
population numbers
to indicate such a
change, making this
a rogue effort for
political gain. You
don't keep redrawing
lines until
Republicans win,
that is not
representation. You
don't split up
minority
populations,
diluting their
voice, that is not
fair representation.
You don't put
Austinites in the
same district with
rural east Texans,
with whom they have
nothing in common.
You keep similar
populations together
to represent their
group interests as a
united front. This
is a power grab by
the Trump
administration, it

is unethical, it is outside the normal boundaries, in short, it is a part of the ongoing coup against the US government. Redistricting would play directly into the hands of Project 2025. We must remove them from control of our nation, not give them more power. I stand behind the representatives who have fled in an effort to protect our democracy. No new redistricting without a census! Stay on schedule to redistrict after the 2030 census, then bring in independent and nonpartisan consultants to draw fair and equitable districting lines that major on keeping minority groups together within the same communities.
