Affirm public info: I agree

Regarding: Congressional

Message:
I strongly oppose this redistricting effort.

The Texas Legislature should focus on more pressing issues like: (1) establishing the necessary regulations and support to prevent the horrific flooding and deaths that just occurred in Central Texas, and (2) strengthening our state's resilience to extreme weather events by expanding renewable energy sources (wind, solar) and battery storage.

In the short special session, which is currently taking place, we should not waste efforts on unnecessary redistricting before the 2030 census data is in. Rather, we should focus all our efforts on coming up with the solutions needed to prevent unnecessary disasters and deaths from extreme weather.
