Message:

For years, I was represented by a congressman who was unresponsive and unconcerned with the needs of my community. He lived over 200 miles away. Then redistricting 3 years ago finally gave me the chance to vote for and gain a representative who is very responsive and knowledgeable about my community's needs. This is how democracy is supposed to be. I do not want taxation without representation. I do not want to live in another gerrymandered district.
