Message:

Texas Congressional Leadership and Members,

Please do what is necessary to seat a quorum to continue the much-needed work on balancing the many metropolitan and other districts in Texas to better reflect the overall population of those districts which have been previously drawn to favor political parties and ethnic/racial components as opposed to the homogenous makeup of constituents in the more logical physical boundaries of said districts.

Do not be swayed by the emotional appeals of those who want to claim fair representation of certain groups. That statement alone reveals they are more concerned about "their group" over each individual Texan living in these districts... not to mention the large increase of illegal non-citizens in those same districts since the US Borders were flung open by the US Government the past 4 years.

Your diligence in pursuing these matters within the chambers you were elected to serve is most appreciated, regardless of the party affiliation you adhere to.

Thank you,

Leland Johnson
