Message:

Kill the "mid-census" bill. Adjourn the special session as the topics do not meet the standard of what Special Sessions are to be called for. It represents a huge waste of tax dollars, is illegally modifying laws. Call a true special session to address the needs of Texans, with topics including permanent school funding, rural health care and support, medical care and basic needs for Texans in need, with emphasis on the elderly, children and the disabled and fund weather research. Start thinking about the real redistricting after the next census so that Texas is no longer gerrymandered. The legislature is guilty of election fraud as that is what the government does to manipulate the vote so that fair elections are not obtained. Do not redistrict so that you select the representatives. Texas must be un-gerrymandered and voting rights returned to the people.
